

MEMORIAL AND CELEBRATION OPPORTUNITIES

City of Tiffin, Iowa

Trees/Memorial Plaques

The purchase of a memorial tree includes an engraved plaque that will be installed at the base of the tree. The plaque will be approximately 4" x 4". The city will purchase and plant the tree and will maintain it for it's lifetime. The donor may express preferences for the location and species of the tree to be planted. The city staff will work with you to find a final spot and species that works for both of us. To plant an original tree and put in a plaque is \$800. To put in a plaque in front of one of our many pre-existing young tree's is \$400.

Benches

With the bench program the donor has the option of having a plaque installed on the back of the bench. City staff will install the cement, bench and plaque. The plaque is approximately 4" high x 6" wide. The maintenance of the bench will be the city's responsibility for the life of the bench. The donor may express a preference for the location of the bench. The final place will be worked out by the city staff. Memorial Bench: \$1,500. You can choose composite or metal.

Metal Bench (Deerview Park)

Composite Bench (City Park)
